1. All dairy goats must meet health requirements as specified in the Rules for Exhibition and as required by the Florida Department of Agriculture & Consumer Services.

2. Dairy goats must be free of clinical symptoms of caseous lymphadenitis. With reference to caseous lymphadenitis, *clinical symptoms* are the term used to define **enlargements of the lymph nodes, whether draining or not.** Evidence of incised lymph nodes will be interpreted as prima facia evidence of caseous lymphadenitis in the animal under scrutiny.

3. Dairy goats must be free of symptoms of all other contagious and infectious diseases, whether or not such diseases are herein specifically named.

4. The show veterinarian has the final decision on whether animals satisfy all health requirements. By application for admission, each exhibitor agrees to show his/her animals

5C-29.002 General Requirements for Movement of Sheep and Goats.
(1) Identification Requirements.
(a) All sheep and goats moved intrastate or interstate for any purpose must be officially identified to their flock/herd of birth. All sheep and goats that change ownership for any purpose must be officially identified to their flock/herd of birth as required by 9 C.F.R. § 79.2 (2008). In cases where the flock/herd of birth cannot be determined, the sheep and goats must be officially identified to the flock/herd of origin.
(b) Official Identification Methods: Only APHIS-approved identification methods of sheep and goats as required by the USDA Scrapie Eradication Uniform Methods and Rules, APHIS 91-55-079, June 1, 2005, may be used. Such identification methods must be permanent or tamper-evident, secure, carry a unique premise and individual animal number, and be traceable to flock/herd of birth or flock/herd of origin. Approved methods of identification include:
1. Official USDA-APHIS-VS ear tags,
2. Premises identification tattoos (must be legible and contain the flock/herd number and unique animal number),
3. Official registry tattoos (must be accompanied by either an official breed registration certificate or an OCVI that includes the corresponding official registration number), or
4. Electronic microchip/implant (must be accompanied by owner statement of ID numbers and chip manufacturer, and agent should have a chip reader for verification of placement).
(2) Responsibility for the Identification of Sheep and Goats.
(a) Primary Responsibility. The owner of the flock/herd of origin has the primary responsibility for the identification of all sheep and goats before moving their animals and involving them in intrastate commerce and before they are commingled with animals from different flocks/herds of origin. If official identification has not been placed on the sheep or goats by the owner before leaving the flock/herd of origin and moving them for the purpose of involving them in intrastate commerce, the owner must ensure that the sheep or goats are officially identified before the animals are commingled with sheep and goats from different flocks/herds of origin and before change of ownership.
(b) Secondary Responsibility. Persons with secondary responsibility to identify sheep or goats include:
1. A person who delivers any sheep or goats to a place where they will be commingled must ensure that the sheep or goats are officially identified to their premises of origin before allowing contact with sheep or goats from different flocks/herds or before the change of ownership.
2. A person who receives any sheep or goats that are required to be identified to their premises of origin must ensure that the sheep or goats are officially identified to their premises of origin before commingling with sheep or goats from different flocks/herds or before change of ownership.
(3) Retagging Sheep and Goats with Lost Identification.
(a) If a sheep or goat loses its identification to its flock/herd of birth or origin while in intrastate or interstate commerce the person that has control or possession of the sheep or goat is responsible for identifying the animal before commingling with sheep or goats of different flocks/herds of origin.
(b) The person retagging the sheep or goat shall record the identification number and the flock/herd of origin of the

animal. If the flock/herd or origin cannot be determined all possible flocks/herds of origin shall be listed in the records.
(4) Removal of Official Identification Prohibition.
(a) No person shall remove or tamper with any official identification device.
(b) Official identification devices which are damaged and are no longer functional may be replaced provided all possible flocks/herds of origin are listed in the record associated with the application of the new official identification.
(5) Violations. Sheep and goats entering the state, moving within the state, or changing ownership in violation of the provisions of this chapter may be stopped by an agent, or employee of the Division or by any FDACS law enforcement officer of the state of Florida or any subdivision of the state. Any person, firm, or association having charge, custody, or control of animals imported or moved in violation of this rule will return the animals to the state or flock/herd of origin as directed by the Division.

All Goats / Sheep must adhere to the following Scrapies rules.

NATIONAL SHEEP AND GOAT SCRAPIE ERADICATION PROGRAM
Effective July 1, 2004
Requirements for Identification of Sheep and Goats in Shows, Exhibitions, and Fairs
This information is presented to clarify the mandatory identification requirements for sheep and goats under the National Scrapie Eradication Program. There are two components of the identification requirements that must be met before sheep and goats are allowed to move into the state or within Florida (intrastate) for shows, exhibitions, and fairs.

1. **Premises Identification** – Before official individual animal identification tags can be issued, the owner/agent must register the premises on which the animal is located and obtain a premises identification number from USDA.
2. **Individual Animal Identification** – Once the premises are registered, the owner/agent will receive official individual animal identification tags for identifying each sheep and goat. Applicator pliers will be provided to FFA, 4-H, or YLPA leaders, and/or fair/livestock/show committee to assist exhibitors in the application of the official ear tags.

NOTE: Sheep and goats must be officially identified before commingling with other groups of animals. For registered purebred sheep and goats identified with a permanent official breed registration number, official ear tags are not required. However, upon presentation of such animals for exhibition, a copy of the breed registration certificate must accompany each animal. Regardless of the method of official identification, each animal must be associated with a premises identification number.

The premises must be registered before the exhibitor can receive the official individual ear tag for each animal. The official tags must be applied to the exhibitor's animals prior to presenting them for exhibition. Official ear tags must be affixed by FFA, 4-H, or YLPA leaders, or by a representative of the Livestock Show committee or veterinarian.

GENERAL DISPUTES POLICY

With respect to any disputes which may occur with respect to an exhibitor at the show, such disputes shall be handled by the appropriate Livestock Committee (the "Committee") in accordance with the following:

1. An exhibitor may file a protest with respect to another exhibitor for violation of the rules and regulations of the Committee and/or the International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics by submitting a written protest (a "Protest") on a form (the "Protest Form") which will be available at the Agribusiness Department. The Protest must include the exact basis, cause, and description of the dispute, the name of the protesting exhibitor, the name of the exhibitor being protested, and any materials in support of the Protest as well as any other matters which may be required in the Protest Form and shall be accompanied by payment of $50 which shall be refunded only if the Protest is sustained by the Committee. The Protest Form must be signed by the exhibitor (as the protesting exhibitor), and if the exhibitor is a minor, the Protest Form must also be signed by the exhibitor's guardian or parent, unless the parent or guardian is not available under circumstances that warrant, as determined by the Agribusiness Department in its sole discretion. Failure to properly sign the Protest Form shall deem the Protest Form incomplete and nullity, and in such event, the Protest will not be considered. Any Protest must be submitted (and received by the Agribusiness Department) at least two (2) hours prior to the time that the show is scheduled to occur in order to be considered prior to the show. If a Protest is submitted less than two (2) hours prior to the time that the show is scheduled to occur ("a "Late Submittal"), then the Committee will handle the Protest after the show in accordance with its rules and regulations and the IAFE National Code of Show Ring Ethics, but the Late Submittal shall not affect the award of ribbons for the show. In order to minimize disruption to the show, an exhibitor who intends to file a Protest should do so at the earliest feasible time. In any event, a Protest must be filed with the Agribusiness Department prior to the scheduled release hour for the protested exhibitor's animal in order to be considered.

2. The Agribusiness Department will forward any Protest Form which is duly signed (by an exhibitor as the protesting exhibitor, and if the exhibitor is a minor, the Protest Form must also be signed by the exhibitor's guardian or parent) and any accompanying materials submitted by the protesting exhibitor in support of the Protest to the Committee for its consideration. The Agribusiness Department will also notify the exhibitor being protested of the Protest as soon as reasonably practicable after the Protest has been duly submitted and make available a copy of the written Protest to the exhibitor being protested. The exhibitor being protested may, but shall not be required to, provide a written response to the Protest (a "Response") by submitting a Response to the Agribusiness Department, including any materials in support of the response to the Protest, and the Agribusiness Department shall provide the Response to Committee. A Response shall be on a form obtained from the Agribusiness Department and must be signed by the protested exhibitor, and if the protested exhibitor is a minor, the Response must also be signed by the protested exhibitor's guardian or parent, unless the parent or guardian is not available due to circumstances that warrant, as determined by the Agribusiness Department in its sole discretion. The Agribusiness Department shall make available a copy of the Response to the protesting exhibitor upon request by the protesting exhibitor, but it shall be the protesting exhibitor's responsibility to monitor the Protest and to obtain a copy of the Response. The Agribusiness Department will attempt to notify the protesting exhibitor and the exhibitor being protested of the time of the Committee's review and consideration of the Protest by calling their respective cell phone numbers if provided on the Protest Form and/or the Response Form, but it shall be the protesting exhibitor and protested exhibitor's responsibility to monitor the Protest and obtain the time of the Committee's review and consideration of the Protest and to be available at the time scheduled for the Committee's consideration of the Protest. For any Late Submittal, the Committee will handle the process for review of the Protest after the show.

3. The Committee members present will review the Protest and the Response, if any, in the context of its rules and regulations and the IAFE National Code of Show Ring Ethics and will make a decision to resolve the Protest by a majority of the Committee members present. In the event of a tie vote, the Protest shall be deemed denied by the Committee. The decision of the Committee will be final.

4. The Committee also may apply and enforce its rules and regulations and the IAFE National Code of Show Ring Ethics, with respect to exhibitors at the show.

5. By entering the show, all exhibitors, and their respective parents and/or guardians, shall be deemed to have acknowledged and accepted this General Disputes Policy.

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open-class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibitions in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.

2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.

3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.

4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other samples were taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally.
